AH diagnostics

Advancement in Technology – and still keeping it simple

At this year's Cyto conference in Edinburgh, Agilent launched their newest member of the Novocyte Family – The Novocyte Opteon, the first Spectral Flow Cytometer from Agilent.

A joyful event, with great contribution of both Agilent and the beta-test-site Aarhus University Flowcore Facility.

To celebrate this happy event, you are invited to a free launch seminar of the Novocyte Opteon Spectral Flow Cytometer.

After the seminar you will know a lot more of the instrument and the great results of the beta-test with the OMIP-069 panel.

Coffee and
cake

WHERE: Copenhagen University, Panum,
Nielsine Nielsen auditorium Blegdamsvej 3B,
